**\*PANT BELT MUST BE WORN TO ENSURE AN ACCURATE FIT\***

## A) CHEST MEASUREMENT

With wearer standing in front of you with arms at their side, wrap measuring tape around thier chest at the widest point.

CHEST:		inches
--------	--	--------

## B) WAIST/GIRTH MEASUREMENT

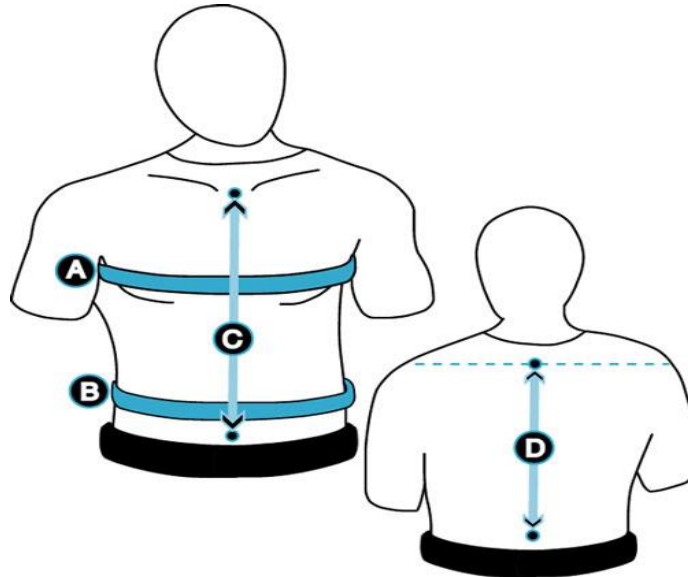

With wearer standing with arms At side, measure his waste at widest point. This is generally 2" above belt or along naval line. Make sure stomach is relaxed for best measurement.

WAIST/GIRTH:		inches
--------------	--	--------

## C) FRONT SEATED MEASUREMENT

With wearer standing, begin measurement 1/2" below clavicle notch to 1" above the top of belt.

FRONT :		inches
---------	--	--------

<b>D) BACK STANDING MEASUREMENT</b>			
While standing and with arms relaxed at side, locate natural shoulder line and select a parallel point in the middle of the back. From that location, measure down to a point approximately 1" above the belt line.			
<b>BACK STANDING:</b>		<b>inches</b>	

<b>E) Height</b>		<b>F) Weight</b>		<b>G) Inseam</b>	
------------------	--	------------------	--	------------------	--
